

# Vori for Suppliers

All of your retailers in one place. Eliminate the headache of key punching, and unleash the power of automation.

## WHAT IS VORI?

Vori is a modern inventory management system that streamlines the ordering, receiving, and invoicing workflows for grocery retailers and suppliers. Vori optimizes your order desk to be more efficient, and empowers your sales reps to sell more, faster. Vori allows you to easily feature items, market promotions, and notify retailers of order deadlines, and inventory levels.
